FORGIVING HUBBY TAKES BACK WIFE

Frank Scrog Has Change of Heart and His Anger Melts When His Help-meet Petitions Peace.

COUPLE LEAVE FOR MINNESOTA

Harry Radoosky, "Third Party" in Little Drama, Departs From Town as Police Ordered Saturday.

Like the last flickering scene in the "movies," so was the departure at an early hour today of Mr. and Mrs. Frank Scrog. It was such, at least, to some friends of the couple who gathered at the Thirty-first street station of the Rock Island lines to bid farewell to the couple, who left for their home in Virginia, Minn., for in their minds the villain had been defeated and the hero triumphed.

Harry Radoosky, who played "third party" in the little drama which was enacted following the arrest of Mrs. Scrog and Radoosky at 2837 Fifth avenue, had previously left the city, as the police ordered, and Scrog had forgiven his wife.

Irate Saturday, when the charge he had preferred against his wife and Radoosky was changed to disorderly conduct and they were fined \$10 each, Scrog soon changed heart at the solicitation of his wife and he soon forgot all about his threat that he would see an attorney to determine whether or not he could still prefer the charge of adultery against the couple.

The Sabbath was spent in peace overtures and before evening Scrog consented to his wife returning with him. Friends of the couple were instrumental in bringing them together again.

Police said today that a "little common sense thrown in with law," as they claim was done Saturday when the charge was changed, often proves better in the long run than prosecution. They aver that had the couple been bound over some difficulty might have been encountered in proving the charge, although both Radoosky and Mrs. Scrog confessed.

There now rests in the Paris museum the grapeshot ball which struck Napoleon before Ratisbon, April 23, 1809. The bullet, which caused but a trifling flesh wound, was picked up by an officer and treasured by him and his descendants, until one finally gave it to the institution, where it is now on view. That was the great Bonaparte's only wound.

DIET IS IMPORTANT AS HEALTH MEASURE

"We dig our graves with our teeth. If we ate the right things in the right way and did not restrict the action of digestive organs with tight clothing, we would digest, assimilate and eliminate all waste material properly and so avoid the result and discomforts of not doing so," declared Mrs. Jessie M. Abbott this afternoon at Masonic temple in the first of three personality talks to the women of the tri-cities. She will speak at the same place on Wednesday and Saturday afternoons.

Mrs. Abbott, who is a beauty specialist, declares that diet has a great deal to do with good health. She advocates placing a ban on meat eating. She declares health to be a normal condition and said that if nature's laws were strictly obeyed, sickness could be overcome.

The duty which women owe to themselves and to the race in taking proper care of themselves was emphasized. She showed the relation of health to efficiency and discussed in an interesting manner the elements which go to produce it.

George Washington Society Meets.

Alexandria, Va., Feb. 21.—The George Washington Masonic National Memorial association, composed of the grand masters of nearly every

grand jurisdiction in the United States, began a two days' meeting here today. Its object is to plan erection of a Masonic temple in Alexandria as a memorial to Washington and as a depository for the many priceless pictures and relics of Washington now stored in the Alexandria-Washington lodge.

TWO ELECTROCUTED IN PENNSYLVANIA

Bellefonte, Pa., Feb. 21.—Roland S. Pennington and George H. March were today electrocuted in the death house of the new penitentiary here for the murder in November, 1913, of S. Lewis Pinkerton in Delaware county.

A hard fight was made to save the men, their case having been carried to the supreme court and then taken before the board of pardons five times. Pennington is said to have been the first person of Quaker extraction to suffer the death penalty in Pennsylvania.

INTRODUCES BILL ON CAPITAL'S DEFENSE

Washington, Feb. 21.—Defense of the national capital in case of invasion or threatened invasion of foreign enemy is contemplated in a bill up for introduction in the house today by Representative Mudd of Maryland, propos-

ing the construction of a military and post road, to be known as the National Defense Highway, which would link Annapolis with Washington. Two hundred and fifty thousand dollars would be appropriated contingent on the expenditure of a like sum by the state of Maryland.

In support of his measure, Mr. Mudd, who is a member of the house naval committee, pointed out that the movement of troops, supplies and heavy guns and said that military experts had testified that in strengthening the army for national defense, the United States should have a mobile army.

ONE KILLED; FOUR HURT IN ACCIDENT

Chicago, Feb. 21.—Maurice Dooley, 23 years old, was killed and four other men were hurled to the pavement at Ninety-ninth street and Western avenue today when an automobile in which they were riding became unmanageable and crashed into a pole.

Attempt to End Strike at Brass Mills. Ansonia, Conn., Feb. 21.—Further efforts to end the strike of unskilled laborers which has caused the closing of the mills of the American Brass company were expected to be made here today. Conferences of the strik-

ers were arranged, to be followed it was believed, by a meeting with the company officials. The mills remain closed.

MEXICO CONSIDERS BANKING METHODS

El Paso, Texas, Feb. 21.—A plan for a new currency system in Mexico, including a national bank under conditions resembling the federal reserve system of the United States, and a new currency issue, has been presented to the first chief of the de facto government by his financial advisers.

The new system, it is said, would be based on the \$250,000,000 metal reserves said to be held in Mexican banks.

The present Carranza currency would be retired gradually, pending establishment of the new issue of notes as legal tender.

The national bank, which would be known as the Bank of Mexico, would, under the plan as outlined, have a capital stock of 250,000,000 pesos. The government would subscribe one-third or approximately 83,333,000 pesos and the member banks the remaining two-thirds.

All the news all the time.—The Argus.

TO HONOR BIRTHDAY OF GEO. WASHINGTON

Washington, Feb. 21.—Plans for celebrating George Washington's birthday tomorrow on an elaborate scale were practically completed today.

President Wilson and many high government officials have accepted invitations to attend exercises at Memorial Continental hall under the auspices of several patriotic societies. French Ambassador Jusserand will be the guest of honor, and Secretaries Lansing and Daniels will occupy seats on the platform.

A feature will be the reading of passages from Washington's state papers expressing his views on national preparedness. Following custom, it is expected that Washington's farewell address will be read in the senate.

Noted Author Dead.

Cleveland, Ohio, Feb. 21.—Mrs. Sarah Knowles Bolton, 74, prominent as an author and charity worker, died here today. She is survived by a son, Charles K. Bolton of Boston, also prominent as an author.

Mrs. Bolton wrote 30 books, best known among them being the "Famous men and women" series, including "Poor Boys Who Became Famous" and "Poor Girls Who Became Famous."
